## Freight Audit, Analysis, Pay, & Duty Drawbacks

*"Best-in-Breed business solutions that reduce cost, optimize supply chains, and improve market position."*

- ✓ Eliminate erroneous Carrier billing charges. Resolve differences between ordered to performed.
- ✓ Empower logistics teams with actionable business intelligence, analysis, and shipment visibility.
- ✓ Improve understanding of worldwide supply chain. All modes, each accessorial, each touch point, to SKU.
- ✓ Automate issue identification, claims submission, recovery, and quick pay with power of Veterans.
- ✓ Maximize duty drawbacks and tax recoveries. The law and your entitlements have changed.

We have yet to find a supply chain that cannot be improved or where opportunities fail to exist to demonstrate significant savings. Our approach is Innovative, revolutionary, and positively disruptive.

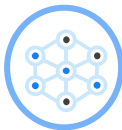

### Freight Audit

A true audit (3 levels): Customer ordered to Carrier contracted, billed, and performed. Audit Carriers (worldwide, all modes, to each accessorial, touch point and SKU. Backed by dedicated account managers, our proprietary technology automates and expedites issue identification, claims submission, and recovery.

### Freight Payment & Recovery

Keep product moving and Carriers happy. Correct Carrier billing via our collaboration portal. Contest and resolve charges in real-time and on-time with full transaction forensics. Eliminate burden of remittance to numerous counterparties. Bridge currency and language barriers worldwide.

### Business Intelligence & Analytics

Actionable business intelligence, normalized data, and shipment visibility (w/ anomaly alerts). Customizable reports and real-time visibility on all transportation activity via a single data repository. Benchmark like-shippers informs your negotiations. We serve as an extension of your team.

### Spend Optimization

Understand total landed cost to the SKU. We analyze your data and prescribe best solutions to optimize your supply chain. Develop a comprehensive roadmap and strategy to improve your network (zone skipping, hub inject, footprint redistribution, etc.).

### Duty Drawbacks & Tax Recovery

Sophisticated programs maximize duty drawback and tax recoveries. Business reviews to identify opportunities and guide planning and optimization, documentation, claim filing, and audit support. Stay current with changing rules, regulations and limitations. New laws equate to immense opportunity.

### Financial Reporting

Effectively manage complex General Ledger coding and cost center allocation. Categorize cost by geography, business unit ... even SKU-level. Track unbilled Carrier activity and provide detailed accruals to the finance team. Model total landed costs and compare to forecasts. Full traceability per transaction.

### Government Contract Compliance

Disrupt the market space and outpace your competitors. A properly leveraged procurement dollar bridges sourcing and sales with economic and socioeconomic gains. Reduce overhead, improve contract performance, and work with military Veterans.
